HIPEC AND COMPLICATED COLORECTAL SURGERY

INTERNATIONAL SCIENTIFIC / PRACTICAL CONFERENCE
LIVE SURGERY SESSION

DESCRIPTION AND OBJECTIVES:

This conference, organized by two active Lithuanian surgery societies, aims to cover following main topics:

- To present the information about hyperthermic intraperitoneal chemoperfusion (HIPEC) as a modern treatment technique and the latest achievements in this area to wide range of doctors. The combination of cytoreductive surgery (CRS) followed by HIPEC is gaining increasing popularity worldwide in the last two decades. This approach is showing positive survival results for the patients with advanced oncologic diseases.
- To share latest regional experience and knowledge in the area of complicated colorectal surgery.

VENUE:

The event will take place in Vilnius, Lithuania.

Vilnius University Hospital Santariskiu Clinics will kindly provide a modern auditorium fully equipped for educational purposes and live surgery demonstration broadcast.

Auditorium No. 1 (Block of auditoriums)
Address: Santariškių str. 2, Vilnius, Lithuania
